Hier die offizielle Meldung aus dem AWE-Forum:

This is a sad moment for all AWE fanatics!

It has been great "few" years in the world of AWE modding and it's sad that this day had to come. But still,, the community will continue with the help of Mike_Nomad and his fantastic crew at raidsermerciless.

Reason to why we choose to quit is just plain and simple: There's no time to keep up modding, supporting nor the forum.

This forum will be locked soon,, just for reading and searching and it will stay so for a while.

All new topics will be @ <http://forums.raidsermerciless.com>

Do sign up there for AWE support.

We thank you all that have contributed & making AWE mod this popular and especially our fantastic crew here at AWE forum!

We also thank allbodies at <http://forums.raidsermerciless.com> that gladly embrace AWE support at their forums!

Thanx Mike_Nomad!

Best wishes
